## SUMMARY

Civil Engineering undergraduate with interests in Construction Management and Structural Engineering. Completed Project Management in Construction Specialization by L&T EduTech, with practical knowledge of planning, scheduling, and cost control. Currently I am learning GIS, Remote Sensing, and Drone Surveying, seeking internship opportunities to apply technical and analytical skills.

## SKILLS

- **Construction & Management**:
  Project Planning & Scheduling (MS Project, Primavera), Cost Estimation, BOQ Preparation, BBS (Bar Bending Schedule)
- **Structural & Design Software**:
  AutoCAD, STAAD.Pro
- **Programming & Analysis**:
  Python (Basic), MATLAB (Basic)
- **Software & Tools**:
  MS Excel (Data Analysis)

## PROJECTS

**Hydrophobic Concrete for Water-Resistant Structures**

- Developed M30 grade hydrophobic concrete using oleic acid and fly ash to reduce water absorption
- Achieved significant reduction in water absorption (0.42% vs 4.0%) with minimal strength loss
- Conducted strength and durability tests as per IS codes and performed cost analysis

**Structural Health Monitoring of Column (Analytical Study)**

- Studied structural behavior of columns and methods for monitoring stress and strain
- Analyzed failure indicators and maintenance strategies for structural safety

**Smart Rainwater Harvesting System (Python-Based)**

- Developed a Python-based model to estimate runoff, storage capacity, and water utilization
- Performed data analysis and visualization to support efficient water management

**Visual Structural Inspection of G+6 Residential Building**

- Conducted inspection to identify cracks, defects, and deterioration in structural elements
- Prepared report with observations and recommendations for maintenance

**Pollution-Aware Zoning & Smart City Planning (MATLAB)**

- Developed MATLAB-based model for pollution-aware urban zoning using multi-criteria analysis
- Analyzed environmental factors like AQI and terrain to optimize land-use planning

## CERTIFICATIONS

- Project Management in Construction Specialization – L&T EduTech (Coursera) Link
- Marketing Management-I – NPTEL Link
- Material Selection Matters & UHPC – PCI (Precast Concrete Institute)

## EDUCATION

**B.Tech in Civil Engineering**
NICMAR University, Pune
2023 – 2027
CGPA: 8.8 / 10
**Class XII (Maharashtra State Board)** – 81.83%
**Class X (CBSE Board)** – 79%
